

# SCIENCE ON SATURDAY

Tracy, CA

Lawrence Livermore National Laboratory

December 11, 2010

## *Put It Back When You Are Done: Storing Carbon Dioxide in the Earth Not the Atmosphere*

### **Presenters:**

**Roger Aines, Senior Scientist LLNL**

**Ken Wedel, Science Teacher, Tracy High**

### **Introduction:**

**Jim Franco, Tracy School District Superintendent**

In this presentation you will learn about the role that underground storage of carbon dioxide can play in avoiding climate change, and the scientific challenges that we face in keeping the atmospheric load of carbon dioxide from continuing to grow.

**AUDIENCE:** Middle and high school students, teachers and parents are invited to attend Science on Saturday (SOS) in Tracy, CA. SOS is offered FREE OF CHARGE.

**LOCATION:** Kimball High School Theater, 3200 Jaguar Run, Tracy, CA

**TIME:** The presentation begins promptly at 9:30 a.m.

**SEATING IS FIRST COME, FIRST SERVED:** No pre-registration. Seating is limited (400 seats).

**STUDENT NOTES WORKSHEET:** Students receive a worksheet to record the details of the talk. The worksheet is hand stamped at the end of the session.

**CONTACT:** Richard Farnsworth, Education Outreach Manager, Science Education Program (SEP), e-mail: [farnsworth1@llnl.gov](mailto:farnsworth1@llnl.gov).

**WEB SITE:** Details about Science on Saturday are available at <http://education.llnl.gov/sos/>

**PLEASE FORWARD THIS TO TEACHERS, STUDENTS, AND PARENTS**
